

Lab 17: TBD Laboratory Session (Module Association TBD)

BIOL-1

Name: _____ Date: _____

Planning status

This laboratory session is reserved for **November 10, 2026**. The topic, module association, protocol, materials, safety review, and recommended textbook reading are **TBD**. This planning record is intentionally explicit so the session can be completed without implying that an unapproved experiment is ready to teach.

Learning Objectives

After the session is designed, replace these placeholders with measurable objectives connected to the selected BIOL-1 content:

1. **TBD:** Identify the biological question and relevant variables.
2. **TBD:** Collect or interpret evidence using an appropriate method.
3. **TBD:** Explain a result using a course concept and state one limitation.

Materials and Safety (TBD)

Item	Decision / source	Status
Biological materials or model system	TBD	Not selected
Instruments and consumables	TBD	Not selected
Personal protective equipment	TBD after risk review	Not approved
Waste and cleanup plan	TBD	Not approved

Do not conduct this protocol until the instructor has completed the materials, safety, accessibility, and disposal review.

Investigation Plan (TBD)

1. **Question:** TBD.
2. **Prediction:** TBD.
3. **Independent and dependent variables:** TBD.
4. **Controls and repeated trials:** TBD.
5. **Procedure:** TBD after the protocol is selected and checked.

Data Record (TBD)

Trial / condition	Observation or measurement	Units	Notes
TBD		TBD	
TBD		TBD	
TBD		TBD	

Reflection

1. What biological claim could this investigation support once the topic and evidence are defined?

2. What limitation or alternative explanation should the final protocol address?
