

Lab 18: TBD Laboratory Session (Module Association TBD)

BIOL-1

Name: _____ Date: _____

Planning status

This laboratory session is reserved for **November 12, 2026**. The topic, module association, protocol, materials, safety review, and recommended textbook reading are **TBD**. It is a planning scaffold, not an authorization to conduct an experiment.

Learning Objectives

1. **TBD:** Translate a biological question into an observable prediction.
2. **TBD:** Organize observations or measurements in a reproducible record.
3. **TBD:** Relate evidence to a BIOL-1 mechanism and identify uncertainty.

Materials and Safety (TBD)

Item	Decision / source	Status
Biological materials or model system	TBD	Not selected
Instruments and consumables	TBD	Not selected
Personal protective equipment	TBD after risk review	Not approved
Waste and cleanup plan	TBD	Not approved

The final version must include an instructor-approved risk assessment, accessibility accommodations, and disposal instructions before use.

Investigation Plan (TBD)

Element	Working entry
Biological question	TBD
Prediction	TBD

Element	Working entry
Variables and controls	TBD
Replication plan	TBD
Procedure	TBD after review

Data Record (TBD)

Condition or sample Observation / measurement Units Interpretation

TBD	TBD
TBD	TBD
TBD	TBD

Reflection

1. Which observation would most strongly distinguish the planned explanation from an alternative?

2. What additional evidence would improve confidence in the result?
