

Lab 20: TBD Laboratory Session (Module Association TBD)

BIOL-1

Name: _____ Date: _____

Planning status

This laboratory session is reserved for **November 19, 2026**. The topic, module association, protocol, materials, safety review, and recommended textbook reading are **TBD**. The record preserves the planning requirements without presenting an unapproved activity as complete.

Learning Objectives

1. **TBD:** Formulate a testable biological question.
2. **TBD:** Analyze evidence with an appropriate representation or calculation.
3. **TBD:** Communicate a conclusion that separates observation from inference.

Materials and Safety (TBD)

Item	Decision / source	Status
Biological materials or model system	TBD	Not selected
Instruments and consumables	TBD	Not selected
Personal protective equipment	TBD after risk review	Not approved
Waste and cleanup plan	TBD	Not approved

The final protocol requires instructor approval of hazards, accommodations, cleanup, and disposal before it is used with students.

Investigation Plan (TBD)

Element	Working entry
Question and prediction	TBD
Variables and comparison	TBD

Element	Working entry
Replication and recording method	TBD
Procedure	TBD after review

Data Record (TBD)

Trial / sample Observation or measurement Units Confidence / limitation

TBD	TBD
TBD	TBD
TBD	TBD

Reflection

1. What would a scientifically useful conclusion look like for this investigation?

2. What revision would you make after reviewing the evidence?
