Course Schedule - BIOL-1: General Biology

Fall 2026

Schedule for BIOL-1 section **C1000** at the D Yard Education room. Required meetings are Tuesdays and Thursdays, 5:30–8:40 PM. The first class meeting is August 27 (the originally scheduled August 25 meeting is cancelled).

Lecture/Lab pairing. Each meeting pairs the lecture module with the next lab in the course sequence, so from September 3 the lab number runs one ahead of the same-numbered module (Module 3 meets with Lab 4, and so on). Lab files keep their names and home modules — see `../course/labs/README.md`. Module 2 (Basic Chemistry) spans two meetings (September 1 and 3). The machine-readable meeting map is `../../course_calendar.toml`.

September 8 and 10 closure. Classes were cancelled on September 8 and September 10, 2026. Every meeting from September 15 onward carries the content originally planned one week earlier, and the two end-of-term review/TBD-lab sessions (with Labs 18 and 19) were removed so the section final stays on December 10.

Session	Week	Day	Date	Lecture (Module)	Lab	Recommended textbook chapters	Notes
1	1	Thu	8/27	Module 1: Biology - The Study of Life	Lab 1: Introduction to Scientific Measurement	Ch. 1	First class meeting
2	2	Tue	9/1	Module 2: Basic Chemistry — Part 1 of 2	Lab 2: Probability and Statistics	Ch. 2	
3	2	Thu	9/3	Module 2: Basic Chemistry — Part 2 of 2	Lab 3: Introduction to Microscopy	Ch. 2	
4	3	Tue	9/8	No Class	—	—	Campus closure; content moved to 9/15
5	3	Thu	9/10	No Class	—	—	Campus closure; content moved to 9/17
6	4	Tue	9/15	Module 3: Organic Molecules	Lab 4: Liquid Chemistry	Ch. 3	
7	4	Thu	9/17	Module 4: Cells	Lab 5: Viewing Life	Ch. 4	

Session	Week	Day	Date	Lecture (Module)	Lab	Recommended textbook chapters	Notes
8	5	Tue	9/22	Module 5: Membranes	Lab 6: Membranes	Ch. 5	
9	5	Thu	9/24	Module 6: Metabolism	Lab 7: Metabolism	Chs. 6–8	Practice Test 01 and Practice Test 02 take-home review; Exam 01 next meeting
10	6	Tue	9/29	**Exam 01** (Modules 1–6)	—	Chs. 1–8	Exam
11	6	Thu	10/1	Module 7: Molecular Genetics	Lab 8: Molecular Genetics	Ch. 12	
12	7	Tue	10/6	Module 8: Cellular Genetics	Lab 9: Cellular Genetics (Mitosis & Meiosis)	Chs. 9–10	
13	7	Thu	10/8	Module 9: Inheritance Genetics	Lab 10: Inheritance Genetics	Ch. 11	
14	8	Tue	10/13			Ch. 13	

Session	Week	Day	Date	Lecture (Module)	Lab	Recommended textbook chapters	Notes
				Module 10: Epigenetics	Lab 11: Epigenetics		
15	8	Thu	10/15	Module 11: Genomics & Biotechnology	Lab 12: Genomics & Biotechnology	Ch. 14	
16	9	Tue	10/20	Practice Test 02; Exam 02 review	—	Chs. 9–14	Practice Test 02 covers Modules 7–11
17	9	Thu	10/22	**Exam 02** (Modules 7–11)	—	Chs. 9–14	Exam
18	10	Tue	10/27	Module 12: Darwin and Evolution	Lab 13: Darwin and Evolution	Ch. 15	Start of evolution/ ecology unit
19	10	Thu	10/29	Module 13: How Populations Evolve	Lab 14: How Populations Evolve	Ch. 16	
20	11	Tue	11/3	Module 14: Macroevolution	Lab 15: Macroevolution	Chs. 17, 19	
21	11	Thu	11/5	Module 15: Population and	Lab 16: Population and	Chs. 44–45	

Session	Week	Day	Date	Lecture (Module)	Lab	Recommended textbook chapters	Notes
				Systems Ecology	Systems Ecology		
22	12	Tue	11/10	Module 16: Capstone Systems Synthesis	Lab 17: Capstone Systems Synthesis	Cumulative Chs. 1–17, 44–45	Integrative capstone
23	12	Thu	11/12	Practice Test 03; Exam 03 review	—	Chs. 15–17, 19, 44–45	Practice Test 03 covers Modules 12–16
24	13	Tue	11/17	**Exam 03** (Modules 12–16)	—	Chs. 15–17, 19, 44–45	Exam
25	13	Thu	11/19	Comprehensive final preparation	—	Cumulative Chs. 1–17, 44–45	Review and make-up work
26	14	Tue	11/24	No Class	—	—	Fall break
27	14	Thu	11/26	No Class	—	—	Fall break
28	15	Tue	12/1	Practice Test 04; comprehensive final preparation	—	Cumulative Chs. 1–17, 44–45	Practice Test 04 covers Modules 1–16

Session	Week	Day	Date	Lecture (Module)	Lab	Recommended textbook chapters	Notes
29	15	Thu	12/3	Comprehensive final preparation	—	Cumulative Chs. 1–17, 44–45	Review and make-up work
30	16	Tue	12/8	Comprehensive final review	—	Cumulative Chs. 1–17, 44–45	
31	16	Thu	12/10	**Comprehensive Final Exam**	—	Cumulative Chs. 1–17, 44–45	Final exam
32	17	Tue	12/15	Feedback and post-final discussions	—	—	Feedback, course reflection, and post-final discussion

Important Dates

- **Section**: C1000, Fall 2026
- **First class meeting**: August 27, 2026 (August 25 meeting cancelled)
- **Regular meeting pattern**: Tuesdays and Thursdays, 5:30–8:40 PM
- **Location**: D Yard Education room
- **Campus closure, no class**: September 8 and 10, 2026 (course shifted one week later)
- **Fall break / no class**: November 24 and 26, 2026
- **Section final examination**: December 10, 2026
- **Feedback and post-final discussions**: December 15, 2026
- **College final-examination period**: December 12-18, 2026

- **No other planned holidays or Pelican Bay program cancellations** are included in this section schedule.

College Calendar Context

These institutional dates are recorded for planning context; they do not add section cancellations beyond the September 8-10 closure and the two fall-break dates above:

- **Fall 2026 calendar anchor**: August 22, 2026 (College classes begin)
- **Labor Day**: September 7, 2026
- **Veterans Day**: November 11, 2026
- **College fall break**: November 23-24, 2026
- **College Thanksgiving holidays**: November 25-27, 2026
- **College classes end**: December 18, 2026

Exam Schedule

- **Exam 01**: September 29, 2026 - Modules 1-6
- **Exam 02**: October 22, 2026 - Modules 7-11
- **Exam 03**: November 17, 2026 - Modules 12-16
- **Comprehensive Final Exam**: December 10, 2026 - cumulative course assessment
- **Feedback and post-final discussions**: December 15, 2026

Textbook Reading Map

Recommended text: *Biology*, 14th edition, Sylvia S. Mader and Michael Windelspecht, loose-leaf edition, ISBN **978-1-266-24172-7**. The complete course text is stored in `../resources/textbook/Complete_Combined_Textbook_S2026.pdf`. The chapters in the schedule are recommended readings associated with the meeting's content, not additional graded assignments.

Module	Textbook chapters
01	Chapter 1: Biology: The Study of Life
02	Chapter 2: Basic Chemistry
03	Chapter 3: The Chemistry of Organic Molecules
04	Chapter 4: Cell Structure and Function
05	Chapter 5: Membrane Structure and Function
06	Chapters 6-8: Metabolism, Photosynthesis, and Cellular Respiration
07	Chapter 12: Molecular Biology of the Gene
08	Chapters 9-10: Cell Cycle, Cellular Reproduction, and Meiosis
09	Chapter 11: Mendelian Patterns of Inheritance
10	Chapter 13: Regulation of Gene Expression
11	Chapter 14: Biotechnology and Genomics
12	Chapter 15: Darwin and Evolution
13	Chapter 16: How Populations Evolve
14	Chapters 17 and 19: Speciation, Macroevolution, Taxonomy, Systematics, and Phylogeny
15	Chapters 44-45: Population Ecology and Community/Ecosystem Ecology
16	Cumulative selected readings from Chapters 1-17 and 44-45
